

# Dr. Joshua Adams

Chief Architect & Principal Consultant

Dr. Joshua Adams is the founder of Resilient Consulting Solutions (RCS), a specialized firm dedicated to advanced systems architecture, platform engineering, and digital transformation.

With a deep background in computer science and extensive industry experience, Dr. Adams bridges the gap between theoretical research and practical implementation. His work focuses on building "systems that last"—platforms designed for resilience, scalability, and long-term maintainability.

## Expertise Areas:

- Cloud-Native Architecture & Serverless (Cloudflare, AWS)
- Platform Engineering & Governance
- Artificial Intelligence Integration
- System Security & Threat Modeling

At RCS, Dr. Adams leads the development of the RCS Platform, a next-generation consulting interface that empowers organizations to leverage cutting-edge technology with confidence.
